PROJECT DETAILS

Contractor: MCC Pipeline, Inc.

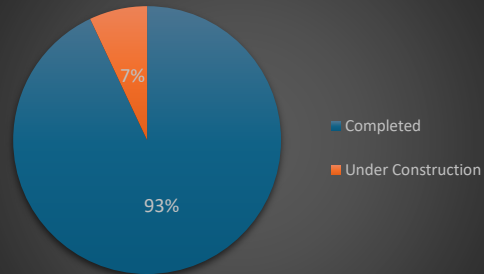

Description: This project will involve replacing approximately 14,500 linear feet of ductile iron water pipeline ranging from 8 to 24 inches at various locations throughout the City

Start Date: 4/6/26

Anticipated End Date: September 25, 2026

Work Schedule: M-F (7AM - 4PM) excluding city recognized holidays. If necessary, night hours M-F (9PM - 6AM).

CONSTRUCTION PROGRESS

Project Updates & Issues

The contractor, MCC, completed the installation of the new 8-inch pipe along Opal Way and finished the 24-inch tie-in connection at Dearborn and 5th Avenue. MCC will mobilize to Ward Way and Mill Creek Road to install new 8-inch ductile iron pipe (DIP), water services, and fire hydrants.

2-Week Look Ahead

MCC will complete the installation of the new 8-inch main line and relocate the existing services to the new line along Mill Creek Road and Opal Way. The contractor will then chlorinate the new line, perform a PSI pressure test, and flush the line.

Current Construction Process

Typically, the replacement of waterlines will take 3-4 weeks from excavation of the trench to connecting to the existing line. Final paving is done when multiple sections of waterline have been replaced. Construction notices have been given to affected residents. For temporary water shutdowns in your area, notices will be given at least 48 hours in advance of construction activities.

Installed 8" DIP on Opal Way

BUDGET TRACKING

Project Cost:	\$	4,003,595.00
Approved Contract Amendment		
Total Contract Value	\$	4,003,595.00
Expended to Date:	\$	3,286,476.47
Balance:	\$	717,118.53
